

Find the oil you need and your customers want.

Introducing our new range of engine oils

Omnecraft™

PREMIUM ENGINE OIL FOR BETTER ENGINE AND SALES PERFORMANCE

Our Newest Name in Parts

Omnecraft is the newest member of the Ford parts family. Which means years of industry experience lies behind every Omnicraft product. This new range of premium engine oils makes Ford lubricant reliability and performance available for most makes and models, new and old.

Going above and beyond

Today's vehicle engines demand high-specification protection and performance. The new Omnicraft engine oil range offers more: meeting and exceeding a wide range of specifications and approvals.

Your comprehensive range

Omnecraft Oil is available in a range of grades and quantities, for diesel and gasoline engines:

- SAE 10W-30 Synthetic Blend Diesel Engine Oil - 1L**
- SAE 10W-30 Synthetic Blend Diesel engine Oil - 6L**
- SAE 5W-30 Full Synthetic Engine Oil - 200L**

Quality Parts You Can Trust

Omnecraft™ ENGINE OIL

SAE 10W-30 Synthetic Blend Diesel Engine Oil

High-performance synthetic blend diesel engine oil for heavy duty vehicles. Suitable for SUVs, pickup trucks, four-wheel drive vehicles and common-rail diesel engines.

3 Reasons to Choose Omnicraft™ Engine Oil

Provides 61%* increase in protection against camshaft wear. Save maintenance costs.
Maximize engine protection and reduce wear. Come with dispersants to keep the engine clean and extend service life.

Provide 28% better piston deposit control. Maximize performance.**
Control soot deposits in the upper ring belt and help boost engine performance.

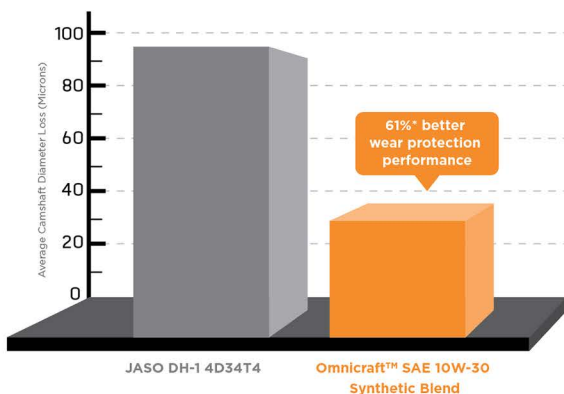

Improve fuel economy by 1.3%***
Maintain oil viscosity that helps maximize engine power and save fuel.

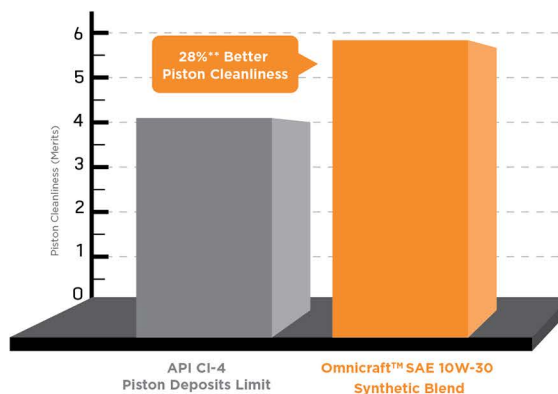

Omnecraft™ SAE 10W-30 Synthetic Blend Performance Test Results

61%* Better Wear Protection on the Camshaft

28%** Better Piston Deposit Control

* Omnicraft™ SAE 10W-30 Synthetic Blend API CI-4 test result according to JASO DH-1 passing limit for average camshaft parameter using the Mitsubishi 4D34T4 engine test.

** Omnicraft™ SAE 10W-30 Synthetic Blend API CI-4 test result according to API CI-4 passing limit for average weighted piston deposits using the Sequence IIIF (ASTM D6984) engine test.

*** Omnicraft™ SAE 10W-30 Synthetic Blend API CI-4 test result according to fuel economy savings versus using an SAE 15W-40 API CI-4 HOMO equivalent product.

Backed by Ford Motor Company

Omnecraft™

ENGINE OIL

SAE 10W-30 Synthetic Blend Diesel Engine Oil - 1L

Meets API CI-4 standards (Approved by the Department of Energy Business)

Part number: QAXO-10W30-TLSD

Net volume: 1 litre

Features

A combination of high-performance synthetic blend base fluid and metallic detergent additives. High oxidation stability with superior dispersion and anti-wear characteristics.

Benefits

- Minimizes deposit formation and wear.
- Extends engine life.
- Improves component durability and reliability.
- Preserves full power by providing effective deposit control on valve and piston crownlands, even at the high temperatures encountered in turbocharged diesel engines.
- Robust oxidation stability and soot control provide extended oil drain capability, helping to maximise component service life.

Omnecraft™

ENGINE OIL

SAE 10W-30 Synthetic Blend Diesel Engine Oil - 6L

Meets API CI-4 standards (Approved by the Department of Energy Business)

Part number: QAXO-10W30-T6LSD

Net volume: 6 litres

Features

A combination of high-performance synthetic blend base fluid and metallic detergent additives. High oxidation stability with superior dispersion and anti-wear characteristics.

Benefits

- Minimizes deposit formation and wear.
- Extends engine life.
- Improves component durability and reliability.
- Preserves full power by providing effective deposit control on valve and piston crownlands, even at the high temperatures encountered in turbocharged diesel engines.
- Robust oxidation stability and soot control provide extended oil drain capability, helping to maximise component service life.

Omnecraft™

ENGINE OIL

SAE 5W-30 Full Synthetic Engine Oil - 200L

Meets API SN and ACEA A5/B5-12 standards
(Approved by the Department of Energy Business)
Part number: QAXO-5W30-TDF
Net volume: 200 litres

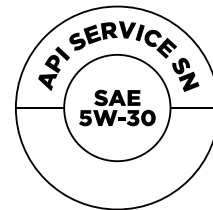

Features

A synthetic multigrade motor oil for use in passenger car and light truck gasoline and diesel engines. Meets API SN and ACEA A5/B5-12.

Mid SAPs technology - with reduced levels of metals, phosphorus and sulphur - enables use in vehicles fitted with low emission technologies.

Benefits

- Reduced engine damage, due to wide temperature application range providing low viscosity during start-up.
- Deposit control and sludge build-up prevention, through optimised detergent and dispersant additive system, aids engine cleanliness.
